Introduction

This document presents the Content Development Policy for the School of Law. It includes a description of the Library's existing collections and an outline of current collecting areas.

Set within the context provided by an overall Content Development Policy and a related Collection Management Policy, its purpose is to ensure that the selection of resources - books, journals, and other kinds of material – whether print, electronic or other format, reflect the teaching and research priorities of the School and provide best value in both financial and academic terms.

Collection evaluation

The Library has a substantial collection in Law, which includes books and journals, in print and digital formats. The principal collection of printed books, including all reading list items, is kept on Green 3 in the Main Library. Most Law books are shelved at 340-349.

Appendix 1: Provides an overview of the Law book stock by classmark, date of publication, and location.

Appendix 2: Lists the books purchased for Law from the Law book fund during the 2009-2010 financial year, excluding items purchased as part of other subscriptions.

Appendix 3: Lists the top 100 Law journals and the 35 leading Criminology & Penology Journals ranked by impact factor and the Library's commensurate holdings. Due to the difficulties in deciding on what constitutes a Law journal this was deemed to be a more accurate measure of the Library's depth of coverage in the subject area. It does not, therefore, comprise a complete list of library stock. However, all journal holdings and subscriptions are listed in the Library catalogue, and all subscriptions to electronic journals are listed in its E-Journals A-Z listing.

Appendix 4: Lists other relevant subscriptions to bibliographic databases and book collections in the area

Appendix 5: Details relevant Special Collections holdings.

Bookfund and resource allocations

Bookfunds are allocated in June/July each year for the following financial year (August – July). This bookfund is to provide for all non-subscription library materials including printed textbooks and research monographs, electronic books, and any other one-off purchase requirements.

Journals and other subscription items are purchased from a separate fund which at present accounts for over 85% of the cost of all purchases.

Collection areas

To support the School's scholarly and research activities the Library will acquire material published in the areas listed below.

American Constitutional Law

Banking Law

Canon Law

Child Law

Civil Trials and Courts

Commercial Law

Company Law

Comparative Law

Competition Law

Computer Law

Conflict of Laws

Consumer Law

Contract Law

Copyright Law

Crime and Criminology

Divorce Law

Employment Law

European / E.E.C. Law

English Constitutional Law

English Criminal Law

English Law: Statutes

English Law: History

Environmental Law

Equity

Evidence

Family Law

French Law

International Law

Insolvency Law

Insurance Law

Jurisprudence

Land Law

Legal Ethics

The Legal Profession

Medical Law

Patent Law

Property Law: Landlord & Tenant

Road Traffic Law

Scottish Law

Social Law

Torts

Wills and Probate

Document Supply Service and Inter-Library Loans

Although the Library will try to accommodate all requests for purchase, books which lie outside the areas listed above or are out of print can be obtained on loan from another library through the Document Supply Service. Such books are usually borrowable for up to 6 weeks at a time. Journal articles and other material not available from within the Library's collections can also be obtained through this service.

Teaching and Learning

The Library will support all taught course modules.

Multiple copies and / or electronic copies of texts will be purchased or subscribed to as appropriate. Subject to copyright restrictions the Library will digitise materials, for instance book chapters, or journal articles not otherwise available electronically, if required for taught course modules.

Reading lists and estimated student numbers should be sent to the Faculty Team Librarian by July 31 and November 30 each year so any new material can be purchased and processed in time for the forthcoming semester.

Reading lists will be added to the Library's reading list system, Link2Lists which provides links to catalogue entries and directly to electronic texts where they are available. Course modules within the Blackboard VLE can link to Link2Lists.

Reading list texts can be 7-day loan or put into the High Demand Collection from where they can be borrowed for shorter periods

Digitisation

Subject to copyright restrictions the Library will digitise material according to its Digitisation Policy. Priorities include reading list items – book chapters or journal papers – and items from Special Collections

Manchester e-Scholar

The University's institutional repository, Manchester eScholar, manages and disseminates the intellectual outputs of the university. Since the beginning of 2010 all accepted PhD theses have been added to the repository.

Stock editing

Most stock is kept on the Library's open shelves. As space is at a premium, especially in the Main Library, periodic weeding is used to remove less-well used material to store from where it can be retrieved usually within one working day.

Unused duplicates are disposed of from time to time.

Weeding and withdrawal criteria are described in the Collection Management Policy.

Donations

Offers of donations are welcome, but they can normally only be considered for acceptance if they are within the collection areas detailed above.

Other factors taken into account in deciding upon acceptance are listed in the Collection Management Policy.

Recommendations

The Library welcomes recommendations for the purchase of books from staff and students of the School. Purchases are normally made if:

- Recommendations fall within the scope of the policy as described above;
- Funds are available;
- The item is not already in stock.

Usually:

- Only a single copy only of a printed book is purchased;
- Books must normally be written in English;
- They must be of an appropriate academic standard.

For reading list texts, multiple copies and electronic versions will be considered as appropriate.

Recommendations can be made directly to the Faculty Team Librarian or by filling in an online form.

Journal recommendations are considered twice a year in March and November. Because of the forward financial commitment involved journal subscriptions usually have to be balanced by savings elsewhere in the subscription budget. Recommendations should be made through the School Library Representative.

Appendix 4

Other Subscriptions

Databases

Given the wide range and interdisciplinary nature of much of the work conducted within the school the division between 'General' and 'Specialised' databases outlined below is somewhat fluid.

'General' Databases

[Medline](#)

Produced by the National Library of Medicine, and one of the most important biomedical databases this covers over 3,000 journals in the field. Of obvious relevance to CSEP researchers looking at resources on bioethics and biolaw, it also contains a substantial "history of medicine" component.

[Philosopher's Index](#) (1940 to date)

Contains details and abstracts of periodical articles and books on philosophy, ethics and related fields.

[Sage Full-Text](#)

This covers both books and periodicals in the field and is international in scope. Particularly useful for those interested in research methodology (see also the criminology databases).

[SCOPUS](#) (1966 to date)

One of the largest databases incorporating over 14,000 journal titles.

[Social Care Online](#)

A database providing international coverage of social work and social care. Updated daily by the Social Care Institute for Excellence, it draws information from journal articles, web sites, research reviews, legislation, government documents and information provided by users of the service.

[Social Policy and Practice](#)

This database covers public and social policy, public health, homelessness, housing, crime, law and order, families, children and older people. Content is from the UK with some material from the USA and Europe. The 200,000+ records are a significant source for references to grey literature and UK government publications. Oriented towards applied research and policy and practice it complements JRUL's more theoretical databases.

[Social Service Abstracts](#) (1979 to date)

A component of the Cambridge Scientific Abstracts Internet Database Service this covers literature on social work, human services, and related areas, including social welfare, social policy and community development.

[Social Sciences Index](#) (1983 to date)

This indexes some 400 English-language journals in the general area of the social sciences.

[Web of Knowledge](#) – for access to ISI Web of Science with Conference Proceedings. This in turn incorporates the following

- Science Citation Index Expanded (1945 to date)
- The Social Sciences Citation Index (1956 to date)
- Arts and Humanities (1975 to date)
- Conference Proceedings - Science (1990 to date)
- Conference Proceedings - Social Science and Humanities (1990 to date)

The home of “impact factors” and in addition to conventional searching (by subject, author etc) permits citation searches. This is perhaps the leading resource for locating proceedings of international conferences, symposia, seminars, workshops and conventions. It is updated weekly.

[United Nations Documents Index](#) (1976 to date)

Searchable by subject and useful as a key to the Library's United Nations printed collection.

[ZETOC Electronic Table of Contents](#) (1993 to date)

ZETOC is a current contents service provided by the British Library. It contains the details of approximately 20,000 current journals and 16,000 conference proceedings published each year. The database covers 1993 to date and is updated daily.

'Specialised' Databases - Law

[HeinOnline](#)

An image-based database with access to legal journals, US Treaties and Agreements and Supreme Court decisions as reported in *US Reports*.

[Index to Foreign Legal Periodicals](#)

This covers mainly American material but can be a useful repository of material.

[Index to Legal Periodicals](#) (via [LexisLibrary](#))

Again this covers mainly American material.

[JustCite](#)

A search engine which will cross-search other legal databases ([LexisLibrary](#), [Westlaw](#) or [Justis](#)), so making case searches much easier.

[Justis](#)

This includes full text of several important series of law reports e.g. Weekly Law Reports, Times Law Reports and the Mental Health Law Reports.

[LexisLibrary](#)

This contains the full text of unreported cases from 1981 to date and tax cases from 1875 to date. Other older cases go back to the late nineteenth century. As it is primarily an American database it also contains a wealth of American material, but also European, Commonwealth and international material.

[Westlaw](#)

This covers the Legal Journals Index, the Current Law indexes, all acts in force from 1267 onwards and statutory instruments from 1949, together with UK cases and an increasing number of full-text journals. The American part of the database in particular contains a wealth of full-text resources.

'Specialised' Databases - Criminology

[ASSIA](#) (1987-)

Applied Social Sciences Index and Abstracts covers 'information on social services, economics, politics, employment, race relations, health and education, penal services or any other area for students, practitioners and researchers who seek to serve people'. As the title suggests, the emphasis of the service is on the application of social policy, but discussions of theoretical and general issues are also covered. One of the principal databases for criminology, it draws upon over 500 English language social science periodicals and is updated monthly.

[Criminal Justice Abstracts](#)

Published by SAGE, this criminology database offers a comprehensive coverage of international journals, books, reports, dissertations and unpublished papers on criminology and related disciplines. It can be searched collectively with other CSA databases.

[Criminology: a Sage Full-text Collection](#)

This can be researched in combination with the above and includes the full-text of 23 journals

published by SAGE and participating societies, encompassing over 6000 articles. It covers such subjects as Criminal Justice, Juvenile Delinquency, Juvenile Justice, Corrections, Penology, Policing, Forensic Psychology, and Family and Domestic Violence.

[National Criminal Justice Reference Service Abstracts](#)

Another CSA database, this contains summaries of over 189,000 U.S. and international publications, including federal, state, and local government reports, books, research reports, journal articles, audiovisual presentations, and unpublished research

[PsycInfo](#) (1887 to date)

PsycInfo is a database produced by the American Psychological Association that contains references and abstracts of periodical articles, books, book chapters, dissertations and reports on psychology. Its coverage includes the psychological aspects of education and educational evaluation methods. It covers the contents of over 1300 periodicals from around 50 countries and is updated weekly.

[Sociological Abstracts](#) (1974 to date)

A useful tool for socio-legal issues. This covers a wide range of professional sociology journals, theses, conference papers and chapters in edited volumes and is updated daily. Again, this can be searched in combination with any other CSA database selection

E-Books

All E-book holdings are listed by individual title on the online catalogue and are readily locatable by limiting the search option to “electronic resources.”

Law titles are for the most part purchased through aggregators (which incorporate a number of publishers) rather than single suppliers. The most relevant of these are:

- [Academic Library](#) – covers the range of the social sciences including development, business, economics, and international relations.
- [Blackwell Reference Online](#) – full-text access to nearly 300 reference works in a range of subject areas including business & management, social sciences and gender studies.
- Common Law Library – available through [Westlaw](#)
- [Dawsonera](#) – rapidly growing general aggregator (publishers include Hart) and the Library’s principal “bespoke” supplier.
- [Elsevier ScienceDirect Books](#) - offers access to a range of books in social sciences, economics, business and management
- [Making of Modern Law: Legal Treatises 1800-1926](#) – provides digital images of every page of 22,000 legal treatises on US and British law published between 1800 and 1926.
- [MyiLibrary](#)
- [NetLibrary](#) – general aggregator.

- [OECD](#) – in-house publications covering development, emerging economies, economics, information technology, environment and sustainable development, governance, social issues and statistics
- [Oxford Reference Online](#)
- [Oxford Scholarship Online](#)
- [PsycBOOKS](#)
- [Springer eBook Collection](#) – 5000+ titles in the humanities, social sciences and law collection

Appendix 5

Special Collections

The Library does not collect Special Collections material in the area of Law. The Library has limited Special Collections holdings, both printed and manuscript or archival, relating to the history of this subject.
