Introduction

This document presents the Content Development Policy for the School of Nursing, Midwifery and Social Work. It includes a description of the Library's existing collections and an outline of current collecting areas.

Set within the context provided by an overall [Content Development Policy](#) and a related [Collection Management Policy](#), its purpose is to ensure that the selection of resources - books, journals, and other kinds of material – whether print, electronic or other format, reflect the teaching and research priorities of the School and provide best value in both financial and academic terms

Collection evaluation

The Library has substantial collections in all fields of Nursing, Midwifery and Social Work and includes books and journals, in print and digital formats. There are a few historical resources (such as resources detailing the life of Florence Nightingale etc) held in our [Special Collections Library](#) on Deansgate. The principal collection of printed books, including all reading list items, is kept on Blue 2 in the Main Library. The Social Work books tend to be predominantly found at the 360 classmark. The Nursing and Midwifery sections span across the 610-616 classmarks.

Appendix 1 gives an overview of bookstock held in the areas of Nursing, Midwifery and Social Work at JRUL

Appendix 2 lists the books purchased from the Nursing, Midwifery and Social Work bookfund during the 2009-10 financial year, excluding items purchased as part of other subscriptions.

Appendix 3 lists current journal subscriptions in the area of Nursing, Midwifery and Social Work

Because of the difficulties in deciding on what constitutes a Nursing, Midwifery or Social Work journal, it is not necessarily a complete list. However all journal holdings and subscriptions are listed in the Library catalogue, and all subscriptions to electronic journals are listed in its E-Journals A-Z listing.

Appendix 4 gives an overview of subscriptions (such as databases) held in these subject areas

Bookfund and resource allocations

Bookfunds are allocated in June/July each year for the following financial year (August – July). This bookfund is to provide for all non-subscription library materials including printed textbooks and research monographs, electronic books, and any other one-off purchase requirements.

Journals and other subscription items are purchased from a separate fund which at present accounts for over 85% of the cost of all purchases.

Collection areas

To support the School's scholarly and research activities the Library will acquire material published in the areas listed below.

- Alcohol Misuse
- Antenatal Care
- Asthma
- Breast Disease
- Cancer Nursing
- Chemotherapy
- Childbirth
- Child Protection
- Chronic Conditions
- Clinical Supervision
- Community Nursing
- Continuing Care
- Coronary Care
- Diabetes Care
- Dementia
- Depression
- Drug Misuse
- Ethics
- Elderly Care
- Evidence-based Health Care
- Gastroenterology
- Health Education
- Health Visiting
- Infection Control
- Intensive Care
- Law and Children

- Law and Health Professionals
- Mental Health
- Mentorship
- Multicultural Healthcare
- Nursing Assessment
- Orthopaedic Nursing
- Pain Management
- Palliative Care
- Patient Assessment
- Paediatrics
- Perioperative Care
- Pharmacology
- Postnatal Care
- Pregnancy
- Rehabilitation
- Renal Nursing
- Respiratory Disorders
- Social Work
- Stroke (CVA)
- Surgical Care
- Ward Management
- Wound Care

Document Supply Service and Inter-Library Loans

Although the Library will try to accommodate all requests for purchase, books which lie outside the areas listed above or are out of print can be obtained on loan from another library through the [Document Supply Service and Inter Library Loans](#). Such books are usually borrowable for up to 6 weeks at a time. Journal articles and other material not available from within the Library's collections can also be obtained through this service.

Teaching and Learning

The Library will support all taught course modules.

Multiple copies and / or electronic copies of texts will be purchased or subscribed to as appropriate. Subject to copyright restrictions the Library will digitise materials, for instance book chapters, or journal articles not otherwise available electronically, if required for taught course modules.

Reading lists and estimated student numbers should be sent to the Faculty Team Librarian by July 31 and November 1 each year so any new material can be purchased and processed in time for the forthcoming semester.

Reading lists will be added to or updated in the Library's online [Link2Lists](#) service: each list is embedded into Blackboard through the module code. For traditional bibliographic references to print material, e-books and journal articles, this links directly through to entries in the Library catalogue. Using the new Link2Lists software, tutors can add hyperlinks to audio files, video clips, podcasts etc. to provide students with multimedia [resource lists](#). Academic staff interested in using Link2Lists software (rather than a traditional word processing package) to create lists, or in being able to update their lists throughout the academic year, should contact Library staff for training and support.

Reading list texts can be 7-day loan or put into the [High Demand Collection](#) from where they can be borrowed for shorter periods. Core reading material tends to be assigned to 7 day loan status in order to increase circulation and achieve exclusive and maximum borrowing potential to University of Manchester students and staff.

Digitisation

Subject to copyright restrictions the Library will digitise material according to its [Digitisation Strategy](#). Priorities include reading list items – book chapters or journal papers – and items from Special Collections

Manchester e-Scholar

The University's institutional repository, [Manchester e-Scholar](#), manages and disseminates the intellectual outputs of the university. Since the beginning of 2010 all accepted PhD theses have been added to the repository.

Stock editing

Most stock is kept on the Library's open shelves. As space is at a premium, especially in the Main Library, periodic [weeding](#) is used to remove less-well used material to store from where it can be retrieved usually within one working day. [[Store Retrieval](#)]

Unused duplicates are disposed of from time to time.

Weeding and withdrawal criteria are described in the [Collection Management Policy](#).

Donations

Offers of donations are welcome, but they can normally only be considered for acceptance if they are within the collection areas detailed above.

Other factors taken into account in deciding upon acceptance are listed in the [Collection Management Policy](#).

Recommendations

The Library welcomes recommendations for the purchase of books from staff and students of the School. Purchases are normally made if:

- Recommendations fall within the scope of the policy as described above;
- Funds are available;
- The item is not already in stock.

Usually:

- Only a single copy of a printed book is purchased;
- Books must normally be written in English;
- They must be of an appropriate academic standard.

For reading list texts, multiple copies and electronic versions will be considered as appropriate.

Recommendations can be made directly to the Faculty Team Librarian.

Journal recommendations are considered twice a year in March and November. Because of the forward financial commitment involved journal subscriptions usually have to be balanced by savings elsewhere in the subscription budget. Recommendations should be made directly to the Faculty Team Librarian

Appendices

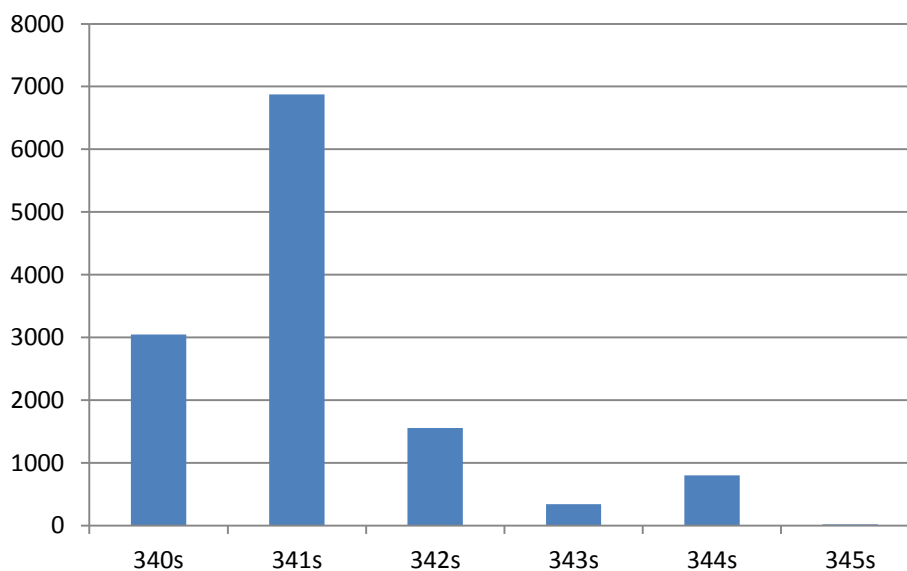

Appendix 1 Stock Overview

Due to the complexity of trying to reflect as many elements of bookstock for the School of Nursing, Midwifery and Social Work, it has been necessary to produce multiple tables to give an overview of current holdings in all three strands of the School.

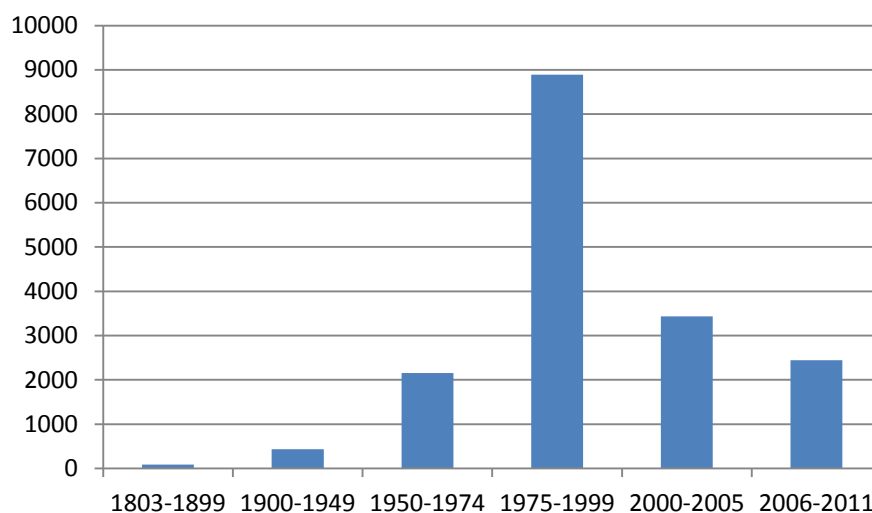

The chart below shows an overview of bookstock levels in the area concerning Ethics. The figures to the left reflect book numbers and the years reflect year of publication. All of these books are held at the 174.2 classmark;

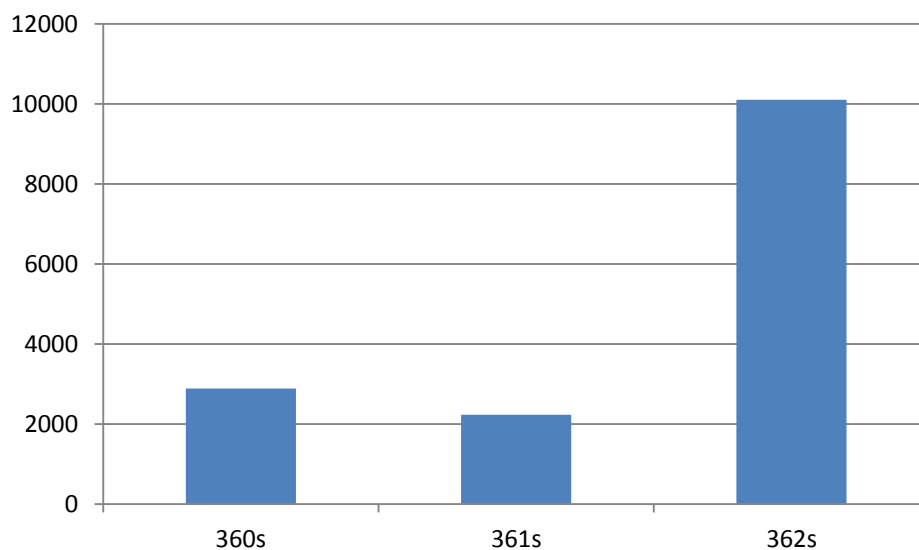

The chart below shows the breakdown of bookstock in the field of Health and Social Care Law;

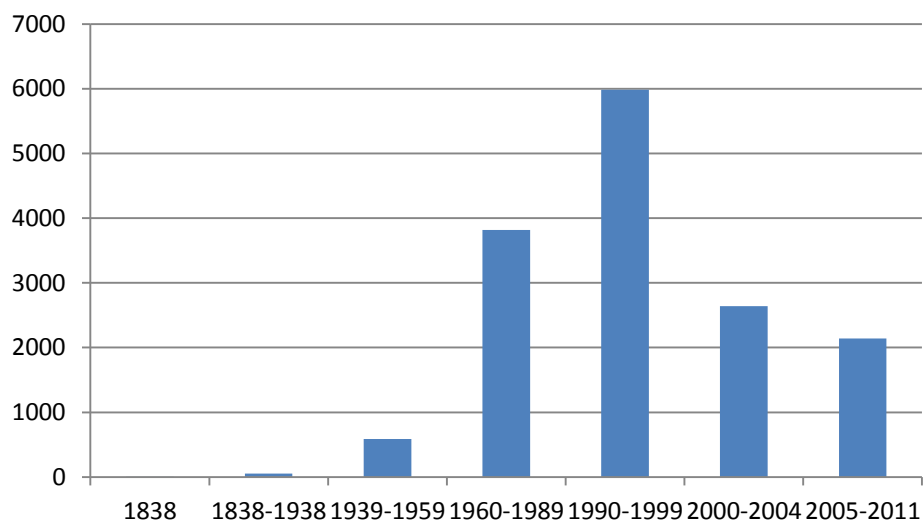

This is the breakdown of health and social care law books housed at the classmarks detailed above, by year of publication. The totals at the left side indicate approximate numbers of books;

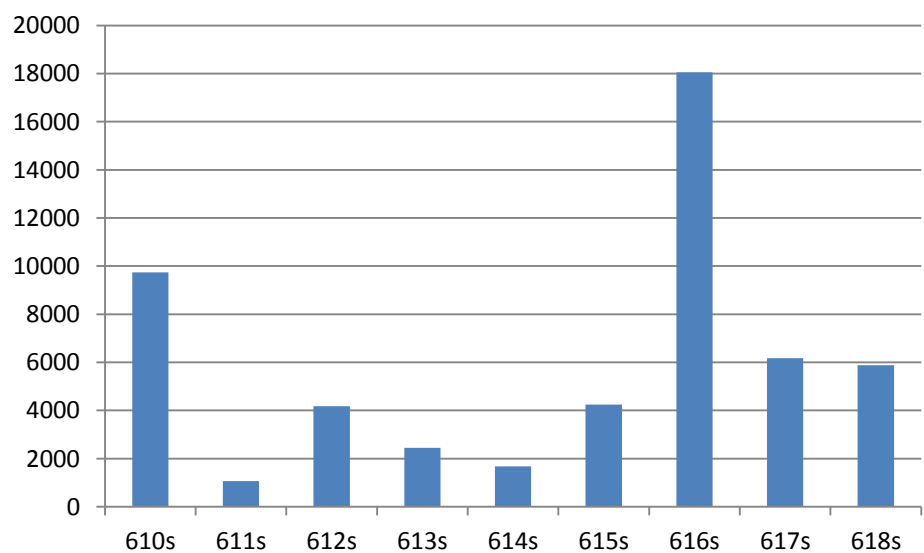

This chart shows the break down of Social Care/Social Work books held by the three main classmarks for the Social Work Division of the School. The numbers to the left indicate approximate numbers of books;

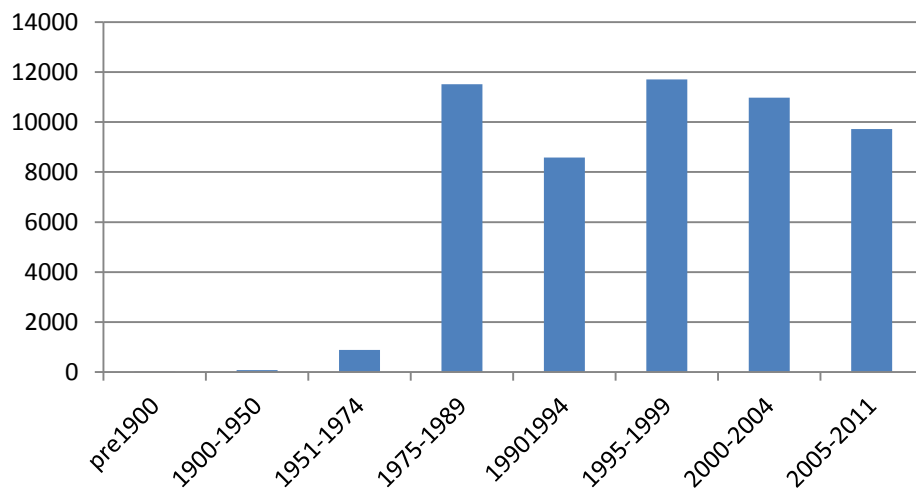

The chart below shows the social care books broken down by years of publication. The numbers to the left indicate the numbers of books;

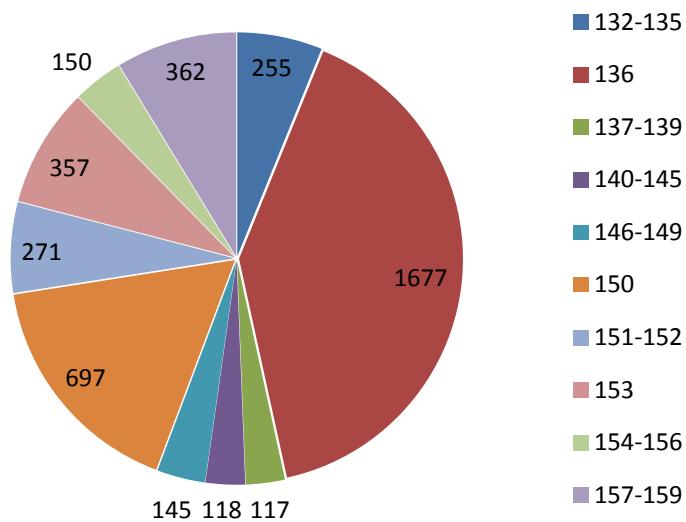

The chart below depicts the main Medical classmark numbers which include the bulk of the Nursing and Midwifery collections. The numbers to the left indicate approximate totals of books;

The chart below shows an over view of the above Medical classmark ranges by years of publication. The numbers to the left indicate approximate numbers of books;

The chart below gives an overview of the classmark breakdown of Psychology texts published in the last ten years (2000-10);

(Numbers on Pie Chart indicate the number of books held at that classmark)

- 132-135 = Human Behaviour/ Counselling/ Abnormal Psychology
- 136 = Gender/ Ageing/ Child Development/ Language Acquisition/ Social Interaction/ Relationships/ Social Psychology/ Identity/ Disability/ Environmental Psychology
- 137-139 = Applied Social Psychology/ Bereavement/ Verbal/ Conversation Analysis/
- 140-145 = Philosophy / Ideas/ Theory of Mind/ Empiricism/
- 146-149 = Pragmatism/ Scepticism/ Rationalism
- 150 = Statistics/ Cognitive Neuroscience/ Health Psychology
- 151-152 = Listening/Sound/ Visual/Perception
- 153 = Cognitive Psychology/ Processes
- 154-156 = Memory/ Learning/ Human Motor Control
- 157-159 = Aesthetics/ Aggression/ Motivation/ Reading

Appendix 2 Book Purchases 2009-10

The Spreadsheet overleaf details expenditure on the Nursing, Midwifery and Social Work Bookfund.

Many of these titles were bought for reading lists and thus multiple copies were purchased.

1,758 Books were bought in total for Nursing, Midwifery and Social Work - (some titles were ordered in multiple copies)

AUTHOR	TITLE
Corner, Jessica	Cancer Nursing
Payne, Sheila	Palliative Care Nursing
Ernst, Edzard	Complementary Therapies for Pain Management: An Evidenced-Based Approach
Fenwick, Peter	The Art of Dying: A Journey to Elsewhere
Foyle, Lorna	Innovations in Cancer and Palliative Care Education
Ferrell, Betty	Textbook of Palliative Nursing
Kellehear, Allan	A Social History of Dying

Appendix 3 Current Journal Subscriptions.

Because of the difficulties in deciding on what constitutes a Nursing, Midwifery or Social Work journal, the pages overleaf do not necessarily constitute a complete list. However all journal holdings and subscriptions are listed in the Library catalogue, and all subscriptions to electronic journals are listed in its E-Journals A-Z listing.

The pages overleaf show Nursing, Midwifery and Social Work titles imported into Endnote from Copac. It does not necessarily reflect current holdings only – it shows titles we subscribe –or have subscribed to – at some point in time.

Journals list for Nursing, Midwifery and Social Work
