Frost & Sullivan: International Market Analysis

Introduction

Frost and Sullivan (Frost.com) provides in-depth international market and industry research reports across a wide number of industrial and high technology markets. Key industries covered include:

Aerospace & Defense	Automotive & Transportation	Building Technologies
Chemicals	Communication Technologies	Electronics & Security
Energy & Power Supplies	Environment	Food Measurement
Healthcare	High Technologies	Industrial Automation
Information Technology	Instrumentation	Materials

A wide variety of reports are available including:

- **Market Reports:** in depth market analysis / market alerts providing details on market size & segmentation, current trends, key drivers, key competitors and market forecasts.
- **Technical Reports:** provides technical intelligence on emerging technologies, patent information and R&D breakthroughs
- **Econometric reports & decision support databases:** country industry forecasts providing demographic, socio-metric, economic, political and regulatory data either as reports or detailed xls spreadsheets
- **Applications Reports :** investigates new / emerging growth opportunities

How can Frost & Sullivan reports help me?

Frost & Sullivan reports provide comprehensive international market analysis and a good starting point for understanding international industrial and high technology sectors. Use Frost and Sullivan reports to:

- Examine current issues, market trends/developments, market size, competitive structure and marketing activity
- Analyse industry leaders
- Understand the impact of emerging technologies
- Identify growth opportunities
- Substantiate business plans, marketing ideas, concepts & strategies

Accessing Frost & Sullivan

- Frost & Sullivan can be accessed via the Electronic Resources section of the MBS Library Website:

<http://www.mbs.ac.uk/library>

- Select **"Markets and Sectors"**
- Note: Your University "Central" username and password is required for off-campus access

Search Tips

- Use Advanced search to search across all reports and filter by sector
- You can also Browse categories to view available reports arranged by report type using the "My Account" option

<http://www.mbs.ac.uk/library>

Dawn of Renewable Energy 'STORE-AGE'
The market insight focuses on the potential of **renewable energy** storage. Some of the trends and investment highlights are presented.
Published: 29 Nov 2010 Financial Benchmarking

Investment Prospects in Renewable Energy Storage Market
Frost & Sullivan's Financial Benchmarking and Analysis (FBA) service presents an analysis of the investment opportunities in the **renewable energy** storage market, highlighting major global and regional market trends, the market segments and the pockets of investment in each of the segments. The FBA focuses on the various classes of investment **energy** storage has received and the most lucrative
